Good Suggestions for Improving the City of Churches.

Brooklyn Readers Point Out the Various Defects of Their Burgh.

Street-Cars and Ash-Barrels Come in for Their Share. .

Another batch of ideas for the improvement of Brooklyn is printed to-day. For the best uggestion a gold double eagle will be given.

Direct Transit to Prospect Park. SOUTH FERRY .- We need a line of cars from south Ferry to Prospect Park, direct. To reach the Park now we have either to pay

Newtown Creek's Fragrance. establishments on Newtown Creek. The smell on a night when the wind is blowing from east or southeast is unbearable.

The L. J. R.R. Tracks. ERNEST BORSEMANN, 1675 Atlantic avenue. -Brooklyn needs to have the Long Island Railroad Company stopped from running their trains through Atlantic avenue, not alone that they are a nuisance, but on account of the great danger to every Brooklyn citizen. Better pavements are needed, too, in the eastern parts of Brooklyn.

Bridge Gutes Needed.

W. E. A., 187 Penn street-In regard to improvement I think it would be advisable to put gates on the bridge crossing Fifth street on Driggs avenue, going to Greenpoint. I was crossing over to-day, and I saw something which might have been a serious accident if it had not been for a gentleman passing, who saved a child from falling in the water.

Some South Brooklyn Nuisances. J. B. Woods, 36 Sixteenth street-I would suggest that our city government lower the tax upon property and make better use of the taxpayers' money. Give us better use of the taxpayers' money. Give us better street deleaning and ash collecting in my locality. We do not know what a garbage collector is. I We have ashes night, noon and morning passing our door to the dumps. Then the beautiful smells from the canal, the turning of the bridge at Hamilton avenue, swerything to stop, us from our business. It these things I were stopped or improved then the city officials would have the good wishes of all south Brooklyn.

PROTECTION—My idea is more police, to project us from the burgiars and murderers who come here to do their mischiet. The treason they come here is they knew Brook. If the property part is the knew Brook if the property patrol the streets. They don't wait until dark, but work in daylight as well. A burgiar broke into a house next to mine in the daytime, and a neighbor followed him four blocks before he met a peliceman; the neighbor was the loser, for he add to go to court and lost two days pay out of \$14 a week. I think the county ought to pay any person who renders such a service, as he risks his life in catching a thief. I think what Brooklyn most needs is more policeman. PROTECTION-My idea is more police, to

Regulate the Anh-Barrel. A. E., Flushing avenue—One great improvement to the city of Brooklyn would be o do away with the ash-barrel. In our district it is the rule to put all ashes and garage on the sidewalk every Friday morning, sage on the sidewalk every Friday morning, and, as often happens, they stay there till Saturday. There they are unsightly, overflowing, dust and cinders blowing in every direction, especially in the direction where people's eyes are. Now, would it not be possible to put one or two covered boxes on each block to receive all ashes and garbage and have them emptied every night after 11 p.m.? Divide each ward into districts that could be covered by a wagon and two or three men, and I think we would have better health in tenements and cleaner streets; and I know that foot passengers would have more comfort, especially on winuy days.

Honest Men in Office DISCUSTED DEMOCRAT-I submit for your consideration the following plan, which is LEE AVENUE ACADEMY OF MUSIC.

"The Still Alarm" was the attraction at the Lee Avenue Academy of Music again last the Lee Avenue Academy of Music again las eminently simple in statement, however diftrust wherever occasion presents a personat advantage in disloyalty. This once accom-plished, with honest men in office, no branch of public service would be neglected, and our fair city would stand, where she deserves to stand, without a rival in this broad land in all that makes a city attractive.

United States Courts.

The condition of Anthony Barrett, the Brooklyn lawyer, over whose holling of 23,790 shares of Brooklyn Elevated stock there promises to be no end of litigation, is said to-day to be extremely critical.

At his home, 21 Brevoort place, it was said this morning, that he is now threatened with consumption as a result of the severe attack of pneumonia from which he recently railled. He is constantly attended by Dr. Jacobi, of ing at North Tenth street and Kent avenue this city, in consultation with Drs. Schenk this morning and sustained a fracture of the and Neidecker, of Brooklyn, and his friends say that a crisis has come and a relapse is

Additional briefs have been submitted to Judge Bookstaver by the counsel for Barrett and the Company in the Hall base. It is declared that the pretense of fraud being practised on the Brooklyn in the formation of the Union Company is calumny, involving as it does the professional reputation of Idward Lauterbach, one of the most prominent members of the New York Bar.

If the injunction is sustained it is claimed that it will do an irreparable injury to the Company and all its stockholders by casting a cloud upon a large amount of the stock.

"In fact," the brief states, "the suit is practically one of blackmall, and has been tried as such by the plaintiff in the newspapers before it was argued in court."

Judge Bookstaver has announced that he will not give his decision in the matter before next saturday.
